

Candystore^{F1}

Plant:

Vigorous growing vine with good fruit cover and excellent setting ability.

Fruit:

Fruit weigh 3-5 kg. Flesh is dense with a nice red colour and excellent flavour.

General:

Harvest early, main season and late. This is the most uniform and reliable variety in NZ. Candystore has a great ability to hold in the field and ships well.

General:

New Zealand's market standard for seeded watermelon.

Regions:

Candystore is grown the length of NZ.

Maturity:

Maturity is approximately 85 days after transplant depending on location and time of year.

Other varieties in our range include:

Candyman
Candyred
Sugarsweet
