

# Super Red <sup>F1</sup>

**Type:**

Cherry belle type.

**Plant:**

Produces large tops - 9 cm. Will not go pithy too early, unlike other radishes. Makes an excellent, attractive bunched vegetable.

**Root:**

Very uniform dark scarlet red round roots, uniform in size. Can get large size roots without pith.

**Harvest Season:**

Performs very well under Winter and Spring harvest conditions.

**Disease Resistances:**

Excellent pith tolerance.
