

T-Rex^{F1}

Maturity:

Very similar main season maturity to Waltham. This means T-REX is not a late maturing variety.

Yield and Storage:

Excellent yields—10-15% plus over Waltham. Storage ability has been very good.

Fruit:

T-REX fruit have a longer necks and smaller bulbs than Waltham. Fruit cavity is small. Good uniform clean colour. Size is 1.2 - 2.3kg. Good internal colour.

Plant:

A short vining type plant. Strong vigour and good fruit set. Its plant strength gives it some added field strength against disease

Disease Resistances:

IR to Px

Disease key:

Px - Powdery mildew (*Podosphaera xanthii*)

General:

Storage 3-6 months.
